

NOTICE REGARDING LEVEL CROSSINGS IN BURTON JOYCE

*Notice received from Level Crossing Manager
Network Rail LNE and East Midlands 09.05.19*

A speed restriction of 30 mile/h for freight trains only will be imposed on the line used by trains from the direction of Lowdham between the above mileages at 10 00 hours on Friday 10th May, and which will remain in force until Friday 17th May 2019.

Consequently, all freight trains from the direction of Lowdham only are likely to approach both of the above-named level crossings at reduced speed throughout the period of time highlighted above.

A laminated notice will be installed at both crossing entrances to Chestnut Grove L.C., advising members of the public to continue to observe the warning signs, and not to attempt to cross in front of a train which is visibly approaching at reduced speed. There will be no laminated notices installed at either of the crossing entrances to Trent Gardens L.C. however, as the presence of the notices could provide a conflicting message to the visual warning indicators in the form of Red and Green Miniature Stop Lights now installed at this location.
